

Goulburn Mulwaree

Community Strategic Plan 2042

2025 Revision

Acknowledgement of country

Goulburn Mulwaree Council acknowledges and pays our respects to the Aboriginal elders both past and present as well as emerging leaders and acknowledge the traditional custodians of the land on which we all live.

Welcome

We are pleased to share our community's vision for the next 18 years; the Goulburn Mulwaree Community Strategic Plan 2042. This Plan presents an inspiring roadmap for our region as we move towards 2042 that captures a clear vision and compelling goals for our residents, businesses, community organisations and many partners and collaborators. This is the key strategic plan that will guide us as we work together to achieve great things for Goulburn Mulwaree.

Since the first Community Strategic Plan (Plan) was developed over a decade ago, it has been used by Council to inform decisions and set the agenda for long-term planning of projects, infrastructure and services. Goulburn Mulwaree Council has a custodial role in initiating, preparing and maintaining this Plan. The implementation of this plan draws upon the continuing partnerships with all levels of government and agencies, non-government organisations, businesses and the community.

With the election of a new council in September 2024, NSW Integrated Planning and Reporting legislation requires that this Plan be reviewed and updated to ensure that it reflects the community's priorities. This updated plan builds on the 2022 Community Strategic Plan, and considers the information gathered from engagement activities that took place in 2024. Our community have highlighted the strengths of our region and identified the key challenges we face.

This Plan emphasises the importance of fostering opportunities to connect with other people, places, and the environment. It also highlights concern around affordability living and housing, social concerns, access to health and medical services, and employment opportunities.

It articulates the central role that economic growth, health and wellbeing and environmental sustainability will play in strengthening our identity as a resilient community that is enjoyable for people of all ages.

Delivering this vision is not something we can achieve in isolation. Shared decision making and effective working partnerships with government agencies, non-government organisations, business and, of course, our community will be critical to our success.

The unique nature of this Plan is that it is a document for the whole community. If we are to succeed in creating the community we have envisioned with this Plan, we need to work together, and everyone is encouraged to play an active role in whatever way they can. This Plan is designed to encourage commitment to our future and a sense of common purpose and responsibility.

This is the Plan for our Goulburn Mulwaree, and we are committed to working with our community to reach our goals.

Vision

To build and maintain sustainable communities while recognising and respecting the region’s environment and heritage.

Vision definitions

Sustainable communities

Refers to both social, environmental, and economic sustainability. Social connections, civic leadership, environmental health, and economic prosperity can be sustained to meet current and future needs.

Recognising and respecting

Our region is rich in history and natural beauty. We acknowledge and value Traditional Custodian history and connection to Country, and everybody that has contributed to our community. We consider the local and global implications of decision-making and actions.

Environment

Considers both the local natural and the broader global environment, including resource use, sustainability and climate change issues.

Heritage

Includes both the history of Traditional Custodian of the Goulburn Mulwaree area and the settlement heritage and infrastructure of more recent times.

Our plan

About our plan

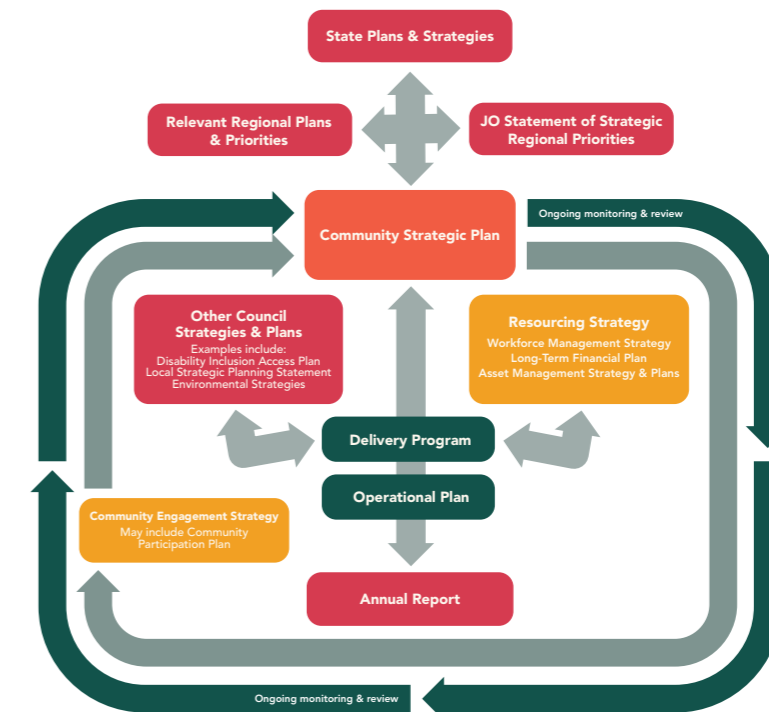

The Goulburn Mulwaree Community Strategic Plan (CSP) documents the aspirations and priorities of our community. It sets out a long-term vision for the region to 2042 and identifies the key priorities and strategies for achieving this.

It is the community’s plan, not a council plan. Goulburn Mulwaree Council is the custodian of the CSP; however, many other state agencies, businesses, industry groups, community groups, and individuals also lead and support the vision and strategic priorities.

Integrated Planning & Reporting Framework

An integrated approach to planning and reporting is required under the Integrated Planning and Reporting Framework set out in the *Local Government Act 1993* and the *Local Government General Regulation 2021*.

This framework requires that the Council develop a series of plans, strategies, and reports linked to the community vision and priorities set out in the CSP. The Community Strategic Plan is based on the social justice principles of equity, access, participation, and rights.

Our Goulburn Mulwaree

The Goulburn Mulwaree region is located in the Southern Tablelands of New South Wales and covers an area of 3,223 square kilometres. The region has a population of over 32,000 residents and boasts extensive natural beauty, a proud agricultural and mining history, and a range of established and emerging industries, such as intensive poultry farming, renewable energy production and health services.

Our main population centres are Goulburn, Marulan, Tallong, Tarago and other smaller villages and localities. The region is predominantly rural, with land mainly used for agriculture (notably sheep and cattle grazing) and extractive industries.

Goulburn, the most populous centre, services the surrounding region through the provision of tertiary services, including the newly redeveloped Goulburn Base Hospital, the Goulburn TAFE campus, Country University Centre, Hume Conservatorium of Music, Goulburn Performing

Arts Centre, Goulburn Aquatic and Leisure Centre, the NSW Police Academy and Driver Training Centre, and the Goulburn Correctional Centre.

Well-connected by its position on the Hume and Federal Highways, as well as the Main Southern Railway Line and the Goulburn to Canberra railway line, Goulburn Mulwaree is positioned two hours from Sydney, an hour from Canberra and just under two hours to the coast. Goulburn acts as a major intersection and distribution centre for freight movement across South-eastern Australia. Increasing connectivity via aviation is becoming available to the region via the growth of Canberra Airport, the development of the new Western Sydney Airport and the Goulburn Airport.

Further anticipated upgrades to the coast via the East-West connection to Nowra via Nerriga will improve the accessibility of the region to Port Kembla and the broader Illawarra and South Coast region.

Community engagement

What we asked

1. How do you feel about the vision in the endorsed CSP?
2. How are we tracking with the existing CSP?
3. What makes your community a great place to live?
4. What do you think are the main challenges facing your community?
5. What have you seen in another area/shire that you think would work well in your community?
6. What is one thing you would like to see achieved in your community in the next ten years?
7. What services or projects do you think Council should be prioritising or lobbying other levels of government for?

How did you get involved

- Virtually – online surveys
- In conversation – group discussions

Participation

Over 280 people from the Goulburn Mulwaree area participated in the Towards 2042 Stage One engagement from 1 February to 15 March 2024.

* The Regional Wellbeing Survey, conducted annually by the University of Canberra, measures the wellbeing and quality of life of people living in rural and regional Australia.

Community engagement

What is important to you

When we asked the community what makes Goulburn Mulwaree a great place to live, the top five strengths were the community events, convenience to major centres and the coast, great regional lifestyle, the caring sense of community, and friends and family.

Compared to 2021 results, there has been more value placed on events and entertainment, friends and family, and arts and culture, and decreasing value placed on location and convenience, and the natural environment.

Main challenges

The main challenges identified by the community were concerns about Council's financial sustainability, leadership, and governance, and access to affordable housing and rentals. Consultation for this Plan was undertaken shortly after intense community engagement in relation to an application for a Special Rate Variation.

Social issues were raised as a concern especially around crime, personal safety, and drug use. Access to services, particularly health and medical care, was a significant challenge, with difficulties in seeing doctors and specialists, under-resourced hospitals, and inadequate mental health support. Respondents also identified concern for jobs and employment security.

The key changes since 2021 include increased difficulty in accessing housing, health and medical services, rising crime and drug use, and decreased interest in retention and support young people.

Key priorities

People who took part in the engagement indicated they prioritise:

- Economic growth, with a focus on reducing the vacancy rate in town centres, small business support, and greater hospitality options.
- The need for better engagement between Council and the community.
- Improving health services through improved outpatient hospital care, and better access to doctors and mental health services.
- Reduced environmental impact, including protecting the natural environment, leadership in climate adaptation and waste management.
- Better community services, particularly aged care, childcare, disability support and family services.

Changes in priorities since 2021 were minimal, with more focus on Council, health and community services, and less focus on economic growth and infrastructure, and sports and recreation.

Council's role

Council is committed to understanding the community's priorities, concerns and needs in terms of key services, facilities, and programs.

Whilst Goulburn Mulwaree Council is the custodian of the Community Strategic Plan, all levels of government, businesses, industry groups, community groups and individuals will share the responsibility for achieving our long-term community goals.

The Plan describes Council's role in the delivery of each priority using the following terms:

Provide

Services, facilities, infrastructure, programs, planning, and engagement.

Collaborate

Partner with the community, business and industry, other councils, and other tiers of government.

Advocate

Amplify the voice of our community to get the best possible outcomes.

Sustainable Development Goals

In 2015, United Nations Member States, including Australia, adopted the 2030 Agenda for Sustainable Development, which outlines 17 Sustainable Development Goals (SDGs). These goals serve as a global blueprint for peace, prosperity, and sustainability for people and the planet, now and into the future.

As responsible global citizens, we have integrated the principles of the SDGs into the development of this Community Strategic Plan. By aligning our local strategies with these global goals, we ensure that our community not only addresses local priorities but also contributes to the broader vision of sustainable development worldwide.

These are the seventeen SDGs we have considered in the formulation of our strategies:

The goals include:

1. No poverty
2. Zero hunger
3. Good health and well-being
4. Quality education
5. Gender equality
6. Clean water and sanitation
7. Affordable and clean energy
8. Decent work and economic growth
9. Industry, innovation and infrastructure
10. Reduce inequalities
11. Sustainable cities and communities
12. Responsible consumption and production
13. Climate action
14. Life below water
15. Life on land
16. Peace, justice and strong institutions
17. Partnerships for the goals

Plan

The Goulburn Mulwaree Community Strategic Plan consists of five themes and strategic objectives:

A. Our community

To have a network of vibrant, inclusive, and diverse communities that value our cooperative spirit.

B. Our economy

To have a strong, growing economy that is resilient and provides a diverse range of opportunities.

C. Our environment

To enhance our built and natural environments as we grow, and protect the natural environment for future generations.

D. Our infrastructure

Our infrastructure complements our natural surroundings and character while enhancing the lives of our community.

E. Our civic leadership

Our Council operates ethically with good governance and empowers residents to participate in community development.

Each theme outlines the strategic objectives, strategies for achieving them, important partners and collaborators, and the specific role of the Council. A separate section explains the review and reporting process, and measures to track progress. The strategies in this Plan have been developed with careful consideration of the quadruple bottom line (QBL) and are grounded in Social Justice Principles.

A. Our community

To have a network of vibrant, inclusive and diverse communities that value our cooperative spirit.

Our progress

Working together

This Community Strategic Plan outlines our collective vision for the future. We must work together to guide and implement strategies that move us towards these goals.

Council is proud to act as the custodian of the Community Strategic Plan, ensuring that the aspirations and priorities of our community are meaningfully documented and elevated among our partners.

Council's commitment in responding to this plan is reflected in the Delivery Program, which translates strategic objectives into actionable plans over a four-year term, aligning with the Council election cycle.

Review

To ensure accountability and transparency, the plan is reviewed every four years in line with the Council term. This regular review allows the plan to adapt to changing circumstances and emerging community needs.

Reporting

Reporting on our progress is a key component of this process.

Council will prepare the State of the Shire Report in the year in which an ordinary election of councillors is held. This Report outlines the implementation and effectiveness of the Community Strategic Plan in achieving its objectives, and will be presented and endorsed to the second meeting of a newly elected Council.

Measures

The following tables outline the measures for determining whether the objectives of this plan are being achieved. They are not measures of Council's performance, but a gauge for stakeholders to determine whether the community is moving closer to, or further away from, the vision.

Measure	Source	Baseline	Desired trend
Community			
Personal Wellbeing Index	UoC Regional Wellbeing Survey 2021	75.9	Stabilise
